

LANDFIRE: WHAT IS IT; WHERE IS IT; IS IT DIFFERENT; HOW MIGHT IT BE USED?

James L. Smith
The Nature Conservancy, Jacksonville, FL 32202

ABSTRACT

LANDFIRE is a one of the most visible fire projects in the United States, generating discussion, excitement, controversy and often consternation from Miami to Anchorage. In this presentation, The Nature Conservancy will attempt to clear the fog, and create a better understanding of what LANDFIRE is, what LANDFIRE isn't, what is unique about LANDFIRE, and some early examples of the application of the data.
